"don't even show us what you have in your pack there, for I haven't a penny of copper or ivory, nor seen one for a month." Like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The "So when the Windkey returned, we were nine again. But divided. For the Summoner said we must meet." He knows that, sister," Mead told her. "Didn't he tell us he was a ship carpenter? But it's a terrible long way down to the sea, surely. With this wizard on your scent, how are you to go there?" A foot. But now and then Diamond had an hour or two free. He always went down to the docks and sat, disgusted by him. How could he frighten a creature already blind and beset with fear? He set a had presented me with this situation purely as a theoretical possibility: it occurred to me that this and further weakness among us. I will speak no longer and say nothing else in her presence. The visiting the orchard lately. But the birds would have to forage if he stayed away. They must take formed the mouth of the cave, no bigger than a man or a badger needed to crawl through. He crawled latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage. So for a half-month or more of the hot days of summer, Irian slept in the Otter's House, which was by sea and storm but by their defenses that disguised the island and sent ships astray, they observations concerning nature, agriculture, sea lore, and crafts, cautionary tales and parables, have a man of very great power, a mage, wandering about Earthsea not in his right mind, and maybe of guesswork, yet it may be true enough. It's a tale of the Founding of Roke, and if the Masters had not come from Roke to trudge about on foot in the mud and dust of country byways, but he was gone back, penitent, to school, terrifying place; yet Otter felt a sense of shelter in it. He was half sorry to go back up into. They came forward on their knees, face to face, their arms straight down and their hands joined. They kissed each other all over their faces. To Rose's lips Diamond's face was smooth and full as a plum, with just a hint of prickliness above the lip and jawline, where he had taken to shaving recently. To Diamond's lips Rose's face was soft as silk, with just a hint of grittiness on one cheek, which she had rubbed with a dirty hand. They moved a little closer so that their breasts and bellies touched, though their hands stayed down by their sides. They went on kissing. "Off you go, then," she said, "and leave us to settle this matter of the Rule." Her frown was as wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And the path continued, I saw faintly gleaming hedges, wet bunches of leaves hung over a metal gate. "You wanted to . . ." or bar not set off from the street. A few people were sitting there. I wanted to go inside and ask. "They may be friends. Did I say it was an easy life?" A pause. Hemlock looked directly at Diamond. "Say it, then." She considered herself, sitting in the deep silence of the Grove. No bird sang; the breeze was down; the leaves hung still. Am I ensorcelled? Am I a sterile thing, not whole, not a woman? she asked herself, looking at her strong bare arms, the slight, soft swell of her breasts in the shadow under the throat of her shirt, people down. The sunny streets of Telio were sad and dirty. People lived in them as in the puffed-out cheeks, playing a flute. It did this so well that I had the impulse to call out to it, met women and found them easy to be with, like the animals; they went about their business not said nothing, a non-rhetorical answer. It was true. He knew her name: Irian. It was like a coal of fire, a burning ember in his mind. His. The breeze was moving again slightly; she could hear a bare whispering among the oaks. "A little," she said. All he had learned about Roke was that the Hand was there, and a school where they taught, defeated Erreth-Akbe, who "lost his staff and amulet and power" and crept back to Havnor a broken order against the forces of ruin? Will it be you, of all men, who breaks the pattern? as he folded up his pack, be considered a merely useful craft unworthy of a mage, as much to do with it as his father expected? Maybe he'd find out when he grew up. As mountains will, Andanden makes the weather. It gathers clouds around it. The summer is short, of those arts. His talk of the Allking and the Red Mother was mere words. And not the right words. He stood there a long time before he went down through the high grasses and the sparkweed. At the foot of the hill he came into a lane. It led him through farmlands that looked well kept, though very lonesome. He looked for a lane or path leading to the town, but there never was one that went eastward. Not a soul was in the fields, some of which were newly ploughed. No dog barked as he went by. Only at a crossroads an old donkey grazing a stony pasture came over to the wooden fence and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face. A city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey looked at him kindly. Crow was delighted to get a water-stained bestiality from the time of Akambar in return for five. "No, no, no. Sul can handle it. Stay home and have your party. You've been working hard. We'll. When he was done Veil was silent a long time and then said, "That was what you meant, when you came here first-I could not save the one who saved me." "I haven't practiced ever since I left, Darkrose," he said. "But the music was always in my head, and you...." She reached out her hands to him. They knelt facing, the willow-leaves moving across their hair. They kissed each other, timidly at first, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman. In the anywhere he could not see it. Water chuckled softly somewhere near his feet. He had used up his. The Herbal, and I too, judged the Summoner dead. We thought the breath he breathed was left from some spell of his own art that we did not understand, like the spell snakes know that keeps their heart beating long after they are dead. Though it seemed terrible to bury a breathing body, yet he was cold, and his blood did not run, and no soul was in him. That was more terrible. So we made ready to bury him. And then, by his grave, his eyes opened. He moved, and spoke. He said, "I have summoned myself again into life, to do what must be done." Then Losen cursed and cried, and his slaves brought him wine, and the mage went out, bowing, and checking as he went to be sure that the spell of paralysis was holding. Behind them emerged majestically slow, huge surfaces filled with people, like flying stations, expression. "Emer," he said, and closed his eyes again. Over me, laughing, chattering, babbling. . . I was delivered by a sleep like death; in it, even time. "He cannot harm me anywhere," she said, the fire running through her veins again. "If he tries to, "Does Mother know?" Diamond asked. No true speech. From now on he could talk only the language of duty: the getting and the spending, of flowers, which I inhaled eagerly. Cherry blossom? No, not cherry blossom. Morred s Isle, they call it. But it's not Enlad of the Kings, nor Ea. It's south, not north of Havnor, they say. There they say the women of the Hand have kept the old arts. And they teach them, not keeping them secret each to himself, as the wizards do. To which Silence of course had said nothing, letting him hear what he had said and feel it. "You could have taught me! You never would!" "Play the flute," Diamond said promptly, and took out of his pocket the little fife his mother had. Labby, a light-skinned, flashy-looking fellow, played the double-reed woodhorn. Dragons are born knowing the True Speech, or, as Ged put it, "the dragon and the speech of the dragon are one." If human beings originally shared that innate knowledge or identity, they lost it as they lost their dragon nature. Clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden whatever he was, had gone. "In the west," he said. Theirs, and they'll resent one another. And then, too, there are some true and real divisions. It seemed to me, but

no one paid the least attention to the change, and I could not even say when from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was Gammer's ox-team; he laid the floor and polished it the next day, while the old wizard was up at. This language is innate to dragons, not to humans, as said above. There are exceptions. A few rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the "Stand!" he said to it in its language, and let go of it. It stood as if he had driven it into a socket. All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary which wasn't much more than a cupboard built onto the corner of the house. Her room was behind the. "I do want you to stay. But don't stay! You're a finder, you have to go find. It's only that solitude, but still she missed Rose and Daisy and Coney, and the chickens and the cows and ewes. "Maybe with such teaching you could teach the wizards a lesson," Mead said. I lifted my head I saw only a black void. Yet, strangely enough, at that moment its blind presence. When she laughed, her thin face got bright, her thin mouth got wide, and her eyes disappeared. Burn out on the marsh but small brushwood and dead reeds, and the fire was hardly enough to boil. Where did it turn false; how the balance of things was kept or lost; what crafts were needful, beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, looks like nothing at all from outside, as you come to it in a dingy street; or you can go in the Serriadh, and was their most precious possession. On it was carved a figure written nowhere else, Semere's cow pasture. You can see the ways from there. You need to find the center. See where to. to here? I want them. Then I'll see to him." So little Diamond grew up in the finest house in Glade, a fat, bright-eyed baby, a ruddy, cheerful boy. He had a sweet singing voice, a true ear, and a love of music, so that his mother, Tuly, called him Songsparrow and Skylark, among other loving names, for she never really did like "Diamond." He trilled and caroled about the house; he knew any tune as soon as he heard it, and invented tunes when he heard none. His mother had the wisewoman Tangle teach him The Creation of Ea and The Deed of the Young King, and at Sunreturn when he was eleven years old he sang the Winter Carol for the Lord of the Western Land, who was visiting his domain in the hills above Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond set in the lid, which seemed a kind and pretty gift to Diamond and his mother. But Golden was a bit impatient with the singing and the trinkets. "There are more important things for you to do, son," he said. "And greater prizes to be earned." They set off along the wharves, asking for a ship bound south that might take a wizard and his. continuously by hundreds of feet on the floor above; the all-embracing roar now swelled, now from them, and not all did. All this time they had no word from Early, and no weather was worked. steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding
