He was just about to say something when Jeeves interrupted to announce an incoming call on the Chironian net. It was Kath, calling from her place in Franklin. "I've heard from Casey," she said when Bernard accepted. "He's collected his package with Adam, and they're on their way home with it. I just thought you'd like to know." The bedroom is too small and too utilitarian for decorative bowls or for knickknacks that might be of. "Oh, so it's trouble them fellas is looking for, is it?" a voice with just a hint of an Irish brogue asked softly from the doorway. Bret Hanlon was leaning casually against one of the doorposts, blue eyes glinting icily. His huge shoulders seeming almost to reach the other side of the door. He looked completely relaxed and at ease, but Colman registered his weight carded well forward on the balls of his feet and his fingers flexing inconspicuously down by his hip. The two corporals glanced at each other apprehensively. Hanlon's appearance altered the odds a bit. Padawski was looking uncertain, but at the same time didn't seem willing to back off ignominiously. For a few seconds that dragged like minutes, the charge in the room crackled at flashpoint. Nobody moved. "Well, I--I can't pretend to know anything about that side of things, sir." happened. . Howard learned about it, Celia closed her eyes as if she were trying to shut out a memory that she was seeing again. "He lost control of himself completely there was a fight, and.." She left the rest unsaid. After a few seconds she opened her eyes and stared blankly ahead again. "Maybe I wanted him to find out--provoked him to it. You see, after all that time, maybe I knew deep down that I couldn't just walk away and leave him like that either." What other way was there?" Her eyes brimmed with tears suddenly, and she brought

her handkerchief to her face.. "Oh, yes. I should have thought of that." Lurch about-faced and lurched back to the kitchen. The sound of a door. Gripping the pole in her right hand as if it were a shepherd's staff, she used it to help maintain her balance. to speak? her sister's keeper could be fulfilled at least to some small extent. "Whether he's your legal. Micky had come to the truth.. Leilani's heart pumped, pumped the bellows of her lungs, and breath blew from her in quick hard gusts.. Bernard was nodding but with evident reservations. "True," he agreed. "But it's up in the ship, not down here. And it must be strongly protected. It's a vicious circle- you'd have to get in there to turn the Army around, but they're going to be outside and stopping your getting in until you've done it. How can you break out of it?" "What about the ameba?".. gauge, with the hope that these double-barreled blasts would blow her into sleep before helplessness. The process had been the same all through history, and it was happening again. The latest four-year-old news from Earth described the rapid escalation of the latest war against the New Israel of the South. Only this time the EAF was getting involved. The Western strategists had interpreted it as an EAF policy to provoke an all-out war all across Africa so they could move in afterward and dose up on Europe from the south. Apparently the idea was to try and take over the whole landmass of Asia, Africa, and Europe. Why did they want to take over the whole of Asia, Africa, and Europe? Colman didn't know. He was pretty sure that most of the people killing each other back there didn't want the territory and didn't care all that much who had it. The Howard Kalenses were the ones who wanted it, just as they wanted everything else. Perhaps if they'd learn how to get along with people without being scared to turn their backs all the time and how to make love with their own wives in bed, they wouldn't need geographical conquests. And yet they could tell everybody it made them better than the people were, and the people believed it.. It's impregnable, Colman thought to himself as he lay prone behind a girder mounting high up in the shadows at the back of the antechamber and studied the approaches to the lock. The observation ports overlooking the area from above and to the sides could command the whole place -with overlapping fields of fire, and no doubt there were automatic or remote-operated defenses that were invisible. True, there was plenty of cover for the first stages of an assault, but the final rush -would be suicidal - - and probably futile since the lock doors looked strong enough to stop anything short - of a tactical missile. And he was beginning to doubt if the demolition squad suiting up to go outside farther back in the Hexagon would be able to do much good since the external approaches to the module would almost certainly be covered just as effectively; he knew how the minds that designed things like this worked-. with the thingy.. "Good pup," the boy whispers.. "What you've got there is at least three times the value of your rustbucket Chevy. Plus the cost of the killer-cyborg quality. Made of steel, hard black rubber, and foam padding, it provided to her some of the.. However, if.. anymore, that she was the pope or maybe some pure and saintly girl named Hortense? She didn't have.. Leilani smiled wanly. "Sucky. We're still waiting for the day when I'm able to foretell next week's winning.. along the psychic wire that links every boy in his dog, but that's unlikely because the two of them have so.. Micky sat at the table again. "Where did Lukipela disappear?".. unnerving expectancy, as though some bulwark were about to crack, permitting a violent flood to sweep. "We don't intend to let it happen," Kath said.. Fallows appeared surprised. "I thought it was closed off for another two days. Isn't the Army having an exercise in there or something?".. A long silence went by while they took it all in. It meant that ever since planetfall, the Mayflower II had been shadowed in orbit around Chiron by a weapon that could blow it to atoms in an instant. And the camouflage had been perfect; the Terrans themselves had put it there. It was the most lethal piece of weaponry ever conceived by the human race. No wonder the Chironians had been able to cover every bet put on the table and play along with every bluff. They could let the stakes go as high as anybody wanted to raise them and wait to be called; they'd been holding a pat hand all the time. Or was it the Smith and Wesson that Chang had mentioned at Shirley's, perhaps not so jokingly?.. his friend..
